

## SECURITY FEATURES

Option	Card Type	Description
	Composite Card	Premier Plus grade card. These cards are used in environments that require high usage such as time and attendance, access control, Driver's Licenses, National ID's and University ID's. Graphics Quality.
	PVC Card	Premier grade card suitable for any non secure application. Smooth & clean edges with no burrs. Graphics Quality.
Option	Security Feature	Description
D	Surface Foil	Custom Holographic Foil Hologram. Surface stamped. Available in (Silver or Gold).
E	2D/3D Hologram	2D / 3D Custom Security Hologram. Designed for medium – high security applications. Hologram creates an illusion of depth & movement. Available in (Silver or Gold).
F	Translucent Embedded Hologram	Custom Translucent Hologram embedded under the clear PVC layer.
G	3D Hologram	3D Hologram images have maximum depth, and can be viewed at multiple angles by tilting the card. Available in (Silver or Gold)

Please choose Option and Position from below and place choice on order form.

## SUBMITTING ELECTRONIC ARTWORK

Below is a guide when creating your artwork file. Feel free to contact us if you have any questions.

### **ADOBE ILLUSTRATOR**

- Do not use pattern films. Will not output correctly.
- High resolution file recommended.

### **ADOBE PHOTOSHOP**

- When clipping paths, use your programs flatness feature, if provided. Keep the path simple and create your silhouetted bitmap with background as part of the image in Photoshop. If required to place logos or type in Photoshop, please leave them on separate layer.
- High resolution file recommended.

### **COREL DRAW – VECTOR**

- High resolution file recommended.

*Note: If artwork provided is not set to the above recommendations; a \$150 per hour artwork fee may apply.*
